TANZANIA CIVIL AVIATION AUTHORITY

ISO 9001:2015 CERTIFIED

TCAA

PUBLIC NOTICE

TIMELY SUBMISSION OF APPLICATIONS FOR RENEWAL OF LICENCES, CERTIFICATES, APPROVALS AND AUTHORISATIONS

The Tanzania Civil Aviation Authority (TCAA) has noted that some operators, aviation personnel and other regulated persons submit renewal applications very close to the expiry dates of their respective licences, certificates, approvals and authorisations. This limits the time available for the Authority to undertake the necessary regulatory evaluation, inspection and approval processes.

The Authority therefore reminds all stakeholders to submit renewal applications within the timelines prescribed under the applicable Civil Aviation Regulations.

To enhance efficiency and ensure timely delivery of regulatory services, all operators, aviation personnel and other regulated persons are urged to monitor the validity of their regulatory documents and submit complete renewal applications through the Civil Aviation Services Portal (CASP) within the prescribed timelines.

In addition, applicants are reminded to ensure that all information provided in their applications is accurate and complete. This will minimise the return of applications for correction or completion and thereby avoid unnecessary delays in working on the requested services.

Stakeholders are further reminded that late submission of an application does not oblige the Authority to expedite or compromise the prescribed regulatory evaluation and approval processes. Applicants remain responsible for ensuring the continuity and validity of their respective licences, certificates, approvals and authorisations.

Issued on 03 October, 2026.
