

THE UNITED REPUBLIC OF TANZANIA
TANZANIA CIVIL AVIATION AUTHORITY

ISO 9001:2015 CERTIFIED

PUBLIC NOTICE

WITHDRAWAL OF TEMPORARY FACILITATIVE MEASURES

Reference is made to the Public Notice issued by Tanzania Civil Aviation Authority (TCAA) on 18th June 2025, titled “*Assurance of Continued Air Connectivity and Movement.*”

Through the said Notice, the Authority introduced temporary facilitative measures to support air connectivity and minimise disruption to passengers and the aviation industry. These measures included additional traffic rights for international airlines and regulatory flexibility for Tanzanian air operators through codeshare and block permit arrangements.

In view of the evolving operational circumstances and the reduced need for the temporary arrangements, the Authority has decided to withdraw the temporary facilitative measures introduced under the said Public Notice, **with effect from 1st November 2026.**

Accordingly, all affected air operators are required to comply with the applicable laws, regulations and established procedures governing air transport operations in the United Republic of Tanzania.

The Authority appreciates the continued cooperation of airlines, aviation stakeholders and the travelling public and remains committed to ensuring safe, secure and orderly development of the aviation industry.

Issued on 15th October, 2026.
