Reg. 2

In these Regulations, unless the context otherwise requires-
“accountable manager” means the manager who has corporate authority for ensuring that all training commitments can be financed and carried out to the standard required by the Authority and any additional requirements defined by the approved training organization; “aero plane” means a power-driven heavier-than-air aircraft, deriving its lift in flight chiefly from aerodynamic reactions on surfaces which remain fixed under given conditions of flight; “aircraft avionics” refers to a term designating any electronic device-including its electrical part-for use in an aircraft, including radio, automatic flight control and instrument systems; “aircraft” means any machine that can derive support in the atmosphere from the reactions of the air, other than the reactions of the air against the earth’s surface; “approved training” means training conducted under special curricula and supervision approved by the Authority.

“approved training organization” also herein referred to as ATO, means an organization approved by the Authority to perform approved training as specified in these Regulations and operating under the supervision of the Authority; “ATS surveillance service” refers to a term used to indicate a service provided directly by means of an ATS surveillance system; “Authority” means the United Republic of Tanzania Civil Aviation Authority; “Certify as to airworthy” means to certify that an aircraft or parts thereof comply with current airworthiness requirements after maintenance has been performed on the aircraft or parts thereof. “procedures manual” means a manual containing procedures, instructions and guidance for use by personnel of the approved training organization in the execution of their duties in meeting the requirements of the certificate; “quality manager” means the manager, acceptable to the Authority, responsible for the management of the quality system, monitoring function and requesting corrective actions; “quality System” means the documented organizational procedures and policies; the internal audit of those policies and procedures; and the management review and recommendation for quality improvement; “satellite ATO” means an ATO at a location other than a primary location of the ATO; “synthetic flight trainer” means any one of the following three types of apparatus in which flight conditions are simulated on the ground:

- (i) a flight simulator, which provides an accurate representation of the cockpit of a particular aircraft type to
